A further advance on the Carso plateau, south of Gorizia, has been made. The Italians took possession of a wood

close to the road from Sdraussina to San Martino. The enemy opened fire with his artillery and then sent troops to attack. A vigorous fight followed and the Austrians were forced to re-treat.

ITALIAN OFFICIAL.

The following official statement was given out to-night by the Italian War Office:

Details of our success in the Strina Valley show that the enemy suffered severe losses, leaving in our hands a great quantity of machine guns, ammunition and sixteen cases of bombs. An important force of the enemy at Saccarant and Pozzi Alta suffered heavily, some guns being destroyed and those remaining being transferred to other positions outside the defence works, from where they still reply to our fire.

The enemy continued yesterday an artillery action against Borgo, in the Val Sugana region, doing little damage, and tried to attack in force our positions at Seikofel, in the valley of Monte Piano, north of Misurina and Zellankofel, west of Montecroce and Carnico, but everywhere were repulsed.

In the Plezzo zone our artillery operated effectually against the enemy's troops in the Lepenje Valley and against columns on the march along the route to the Upper Isonzo, interrupting their advance on Carso. We also effectively bombarded the enemy's skirmishes near Doberdo Lake and on marching columns between Doberdo and Larcottini.

Among materials taken by us in trenches captured on August 20 at Monte Nero we found apparatus supposed to be for inflammable liquids.

On the coastal front the enemy last night and at daybreak attempted an attack at several points, but was repulsed everywhere, especially east of Polazzo, San Martino and the plateau of Doberdo and near our positions north of the bridge head of Tolmino. In the Flitsch region the fighting continues.

In the Tyrol the Italians are approaching our positions north of Lugano Valley.
